Ajay M

Product Designer

(+91) 7397594904 • ajay2manoharan@gmail.com • Tamil Nadu, India • Portfolio • LinkedIn

Product Designer with 3.8+ years of experience creating high-impact web and mobile applications across SaaS, AI, Fintech, and HR Tech industries. Specialized in UX strategy, UI design, design systems, and usability optimization for iOS and Android platforms. Expert in Figma and prototyping tools, with a proven track record in user research, product discovery, and cross-functional collaboration, improving key product metrics by up to 80%.

PROFESSIONAL EXPERIENCE

WeLe | Product Designer

Nov 2025 – Present

AI-powered EdTech platform for career discovery, learning, mentorship, and career readiness. Contributed to the 0→1 product journey, working with founders, product, and engineering to shape scalable, user-centered experiences.

- Contributed to the 0→1 design and launch of Career Compass, learning journeys, dashboards, mentorship, and mock-interview experiences on an AI-powered EdTech platform.
- Designed an adaptive career-assessment experience that analyzes learner responses to recommend career tracks, roles, and personalized improvement areas.
- Designed end-to-end experiences for an AI mentor, mock interviews, learning journeys, and community/mentorship workflows, forming a connected career-learning ecosystem.

Rawcanvas | Product Designer

Apr 2025 – Oct 2025

Creative tech company delivering custom AI, Fintech, and Web3 solutions for global clients. Worked with founders and engineering leads to shape high-impact experiences from the ground up.

- Designed Orange AI, a legal-focused AI platform trained on PDFs/docs, improving data accuracy for law firms and reducing manual effort by 6 hours per week.

- Ran A/B tests on the Atherx Crypto launch landing page, increasing waitlist sign-ups by 28% and purchase conversions by 15%.

Cordova Educational Solutions | UI UX Designer **Nov 2024 – Mar 2025**

Kerala-based EdTech company. Collaborated with cross-functional teams on user-centric web products, focusing on usability, visual clarity, and business needs.

- Designed user-centered experiences for education-focused products, including e-commerce, assessment, and operational workflows.
- Designed dashboards for inventory, orders, and reporting, improving information visibility and operational data comprehension.
- Created interactive tables, filters, charts, and visualization patterns for stock management, order tracking, and reporting workflows.
- Contributed to product decisions by balancing user needs, business requirements, and technical constraints.

HEPL – A Cavinkare Group Company | UI UX Designer **Feb 2023 – Nov 2024**

Business unit of Cavinkare Group focused on workforce enablement and operational digitization. Championed design systems and cross-functional collaboration for products used nationwide by field and factory teams.

- Improved design delivery speed by 40% and boosted team collaboration through structured workflows and design sprints.
- Redesigned the flagship project management tool, cutting feature discovery time by 25% and improving usability scores by 35%.
- Implemented a unified design system across multiple products, cutting design-to-development handoff time by 30%.
- Created a mixed-reality app for immersive industry tours, driving 80% higher engagement and transforming employee training methods.
- Rolled out a nationwide Sales & Distribution app, improving order accuracy by 25% and reducing reporting errors by 40%.
- Collaborated on an internal fintech platform, automating expense submissions and improving reporting speed by 45%.
- Built a modular HRMS covering employee lifecycle, leave tracking, and performance management, increasing HR self-service adoption by 60%.

- Contributed to early product discovery, user research, and stakeholder interviews, shaping design solutions aligned with business goals.

EDUCATION

MSc Physics, St. Joseph's College of Arts and Science, Cuddalore. **Graduated: 2022**

My Physics background strengthened my analytical and problem-solving skills, helping me approach Product Design with structured thinking while balancing user needs and business goals.

SKILLS

Design Expertise: Product Design | UI Design | UX Design | Interaction Design | Information Architecture | Design Thinking | HCI Accessibility

Research & Validation: User Research | Usability Testing | A/B Testing | Data-Driven Design

Collaboration & Leadership: Cross-Functional Collaboration | Stakeholder Presentation | Design Advocacy

Business & Strategy: Agile | Waterfall | Business Metrics & ROI Analysis | Design-to-Business Translation

Tools: Figma | Adobe XD | Photoshop | Illustrator | After Effects | Premiere Pro | Miro | Notion | Framer | Jira

Technical Proficiency: HTML/CSS (basics) | Design System Implementation
